

## **Different Version Of Me**

(words & music by Kayleigh Leith & Sophie Dupin)

Every word hangs from my tongue, kinda like a loaded gun  
I can't be myself when I'm with you  
So I pretend that I'm ok with all the things that you would say  
But inside I am dying to come out

Well I'm sorry I misled you, I'm not used to this at all  
Now you're staring at me, you know you make me feel so small

### **Chorus:**

Don't wanna wake up being someone I don't even know  
Well I'm sorry this is over, I got to go  
Couldn't get my act together, was afraid of what you'd see  
So I hid behind my broken lie and showed you a different version of me

Every thought hangs in my head, so alone in our own bed  
I kinda hate myself when I'm with you  
And every step in front of me is further from my destiny  
And inside me a stranger is born

Well I'm sorry I misread you, I'm not used to you no more  
Now I'm staring at you, do I even know you at all?

### **Repeat Chorus**

Before you start sinking my ship I better hang on, I gotta stay strong  
Should I surrender? I'm losing my grip on the person that I thought I would be  
The one that you refuse to see

Well I'm sorry I misled you I'm not used to this at all  
Now you're staring at me, you know you make me feel so small

### **Repeat Chorus**

Every word hangs from my tongue, kinda like a loaded gun  
I can't be myself when I'm with you

# **Stand Up Straight**

(words & music by Kayleigh Leith & Edo van der Kolk)

Who do you think you're talking to in that tone of voice?  
Oops did I say that, I'm sorry but I meant that  
I have a strong feeling of no regrets; I keep my head up high  
And won't make any bets, just know, the truth when I speak it  
And everyone around me will see it too

I'm just a rebel with attitude, so they say  
But this quiet girl has spoken and bonds are broken apart

## **Chorus**

Stand up straight, no need to argue or debate  
Imaginary things in your mind, reality not far behind  
Stand up straight, no need to argue or debate  
Cause I should and I wish that I could, look for more excuses I won't find.

I need a chance to speak to you, honestly and true  
But, can you hear me? I'm willing but it's all you see.

You've found a reason to fill my head with all these lies  
But this reason has led me to a place, where I found out, who I really am

## **REPEAT CHORUS**

I know, I tend to overreact, that's a fact but it won't change how I'm feeling inside now  
That I can't even take it again, again, again, a again....

## **REPEAT CHORUS**

Stand up, stand up, stand up, you gotta stand up straight  
Cause I should and I wish that I could look for more excuse I won't find  
Stand up, stand up, stand up, you got to stand up straight, you got to stand up straight.

## **Miles Away**

(words & music by Kayleigh Leigh & Paula Valstein)

My home is where the heart is  
My mama used to tell me when I was just a little girl  
But lately I've been thinking about all the miles I've travelled  
And all the roads bring me back to you

### **Chorus**

You're the one I wanted, can't do this without you  
Feels like we're a thousand miles away  
Wish that I could kiss you, if only you could hear me  
Maybe I could fix the mess I made  
The mess that I made and we are miles away

This house it feels so empty  
Cause every little thing reminds me of you  
Looking at the picture when we were happy  
Now I can't recognize myself no more

### **REPEAT CHORUS**

Sleepless nights alone in my bed  
Spinning around, around in my head  
And where are you now  
The light is left on for you to come home

## **Outside**

(words & music by Kayleigh Leith & Ari Hest)

Thinking about everyone having fun  
Stuck in here my workday's just begun  
So what can I do?

Out of my mind by a quarter past 12  
I don't know about everybody else  
But for me, this won't do

Look outside my window big blue open sky  
Not a change it'll pass me by

### **Chorus**

Sun shining bright and I wanna go outside  
I wanna go outside... outside  
Sun shining bright and I wanna go outside

Looking to make last minute plans  
I pick up the phone and I call Diane  
cause I know, yeah I know, that she'll be down

And we sneak outside the back door, looking to run and hide  
Not a chance we will pass this by

### **REPEAT CHORUS**

Outside, out into the light,  
Feel like we could fly  
The wind carries us over, over

Look outside my window  
Look outside my window  
Not a chance it'll pass me by

### **REPEAT CHORUS**

I wanna go, I wanna go, I want to go outside, outside, I want to go outside

# **Time**

(words & music by Kayleigh Leith)

Awake me from this dream  
Cause things are never what they seem  
And how many times can I, just let it be  
Here and now, just today, me and my thoughts  
Wandering away

I know it's hard, to keep it this way  
But it's even harder when I keep pushing away

## **Chorus:**

Lately I'm thinking about time  
And how it is never on my side  
Every moment I have God is wasted away  
Cause I'm too busy thinking of another day

I hear the ticking of the clock  
I put my hands around it but, it won't stop  
And suddenly everything I knew, has gone away  
Left me to stay, another day  
The end of May, I guess it's all ok

I know it's hard, to keep it this way  
But it's even harder when I keep pushing away

## **REPEAT CHORUS**

And I know, that things will turn around  
And I know, that things will get much better  
In my heart, in my soul, I'm still alive  
And I burn with fire and passion in my eyes...

Thinking about time  
And I know that things will turn  
And I know that things will get much better

# **Run Without You**

(words & music by Kayleigh Leith)

I remember your face like gold, so shiny and so new  
And did you hate to leave me, I did all that I could

That sparkle in your eye, I gave you everything  
I thought you really loved me, but maybe I was wrong  
just can't wait... for you... to come right back

## **Chorus**

Come back, come back cause I'm off track without you  
So come right back, right back, right back or I'll have to... run without you

The passion in our kiss, it always felt so right  
But was it just too much  
To make you leave my side  
But I can't wait for you to come right back

## **REPEAT CHORUS**

You don't look back while you walk out the door  
Didn't you see it was you I've been waiting for  
Are you coming back?

## **REPEAT CHORUS**

Running with you, I'm running with you, I'm running without you

# Growing Up

(words & music by Kayleigh Leith)

I grew up in a family of five, I looked outside and I was glad to be alive.  
Mommy loves me and daddy does too, throwing stones is what we used to do

Then I turned eight and I thought I was great, I played outside with my favorite mate  
Lights came on and I knew it was time, to head back home, it was only a climb  
It was a climb

## **Chorus:**

When I, I grow up, I wanna be like you, I wanna be like you  
When I, I grow up, I swear to God it's true, I wanna be  
I wanna be like you

I walked down the aisle with my dad, he turned to me and he looked so sad  
But he guided me to my man, cause that was the original plan  
That was the plan...

## **Repeat Chorus**

When you're a child you wanna be old but you sit down and you do what your told  
cause everyone grows up one day  
Oh God, oh why can't I be like every one else?

## **Little Miss Perfect**

(music by by Kayleigh Leith, Julia Wilde & Eshy Gazit)

Pink bows and frilly dresses  
Keep my nose out of the messes  
Cause I'm perfect all the time

Painted lips and fake eyelashes  
Curtain part and camera flashes  
When you're perfect all the time

Don't look down, chin up now, turn around and hold that smile

### **Chorus:**

Little Miss perfect, she doesn't want to be but she has to be  
Little Miss perfect, she doesn't want to be but she has to be, perfect all the time

All my dolls left in their cases  
While I practice porcelain faces  
When I'm perfect all the time

Curly hair, innocent traces  
Mommy stands and gives me praises  
When I'm perfect all the time

Don't look down chin up now, turn around and hold that smile

### **Repeat Chorus**

I had enough, I'm going down, down, down, oh oh oh  
Can't keep it up, I'm spinning around, round, round  
I had enough, I had enough, of little miss..

Little miss perfect, little miss perfect

### **Repeat Chorus**

Pink bows and frilly dresses keep my nose out of the messes  
Cause I'm perfect all the time

## **Acre of Diamonds**

(Words & Music by Kayleigh Leith & Karen Staley)

They met in college, a few years ago  
Got married had a couple of kids, the whole fairytale you know  
And he was her prince charming til one day she got bored  
The romance, hearts and flowers well, they slipped out the door

She lays awake at night and wonders how it would be  
If she acts upon the smile from the man living down the street

### **Chorus:**

She's already got everything she needs, right there inside herself  
But she spends all her time watching seeds, sown by somebody else  
She thinks the grass is greener, she wants some of their gold she sees shining  
When she's sitting on...an acre of diamonds.

He bought a big house, the biggest one on the block  
Gonna climb that corporate ladder all the way to the top  
He thinks boats and cars, swimming pools and country clubs  
Will fill up that empty space but it never does.

Keeping up with the Jones's down the street is always tough  
When you let things define who you are, there's never enough

### **Chorus:**

He's already got everything he needs, right there inside himself  
But he spends all his time watching seeds sown by somebody else  
He thinks the grass is greener, he wants some of their gold he sees shining  
When he's sitting on...an acre of diamonds

The stories we tell ourselves are rarely true  
The secret is, well it's ok, to just be you

### **Chorus:**

We've already got everything we need, right there inside ourselves  
We spend all our time watching seeds sown by somebody else  
We think the grass is greener, we want some of their gold we see shining  
When we're sitting on...an acre of diamonds

# **Today**

(words & music by Kayleigh Leith & Samantha Brown)

This is the moment I've been waiting my whole life for  
Always been the type who wanted a little more  
So today I take a risk, put it all down on the line  
Believe in myself, and I'll do it just fine

## **Chorus**

I'm on my way and I'm feeling ok  
And today is gonna be my day  
I've got every right to live this life  
So I'm gonna take it and walk away  
Cause today is my day

Walking in a city that doesn't know my name  
Don't know where I'm going, but I keep on going anyway  
Finding my direction, with each step that I take  
Get a little further and I know that I won't break

## **REPEAT CHORUS**

It won't be easy  
But tell me what is
